

Compression Sock, 35/38

DESIGNED FOR

Compression socks provide support

DURABLE CONSTRUCTION

Toe and heel reinforced for added durability

PROTECTION

Cordura panel at shin and cushion in arches adds protection

UNISEX SIZING

Compression socks come in small, medium and large

COMFORTABLE COMPRESSION

KNEE HIGH COMPRESSION SOCKS

The Eleiko Compression Socks feature a compression zone at the back to support the calf and extra protection at the shin with a Cordura panel for added cushioning. The arch features specific cushioning that protects and helps absorb pressure and guard against impact abrasion. The toe and heels are reinforced for added durability. The fabric is a mix of 76% Polyamide/13% Cordura/11% Elastane. The small size is appropriate for EU 35-38/US Women 5-7.5/Men 3.5-7.5, the medium for EU 39-42/US Women 8.5-10/Men 6-8.5 and the large for EU 43-46/US Women 10.5-13.5/Men 8.5-12
