Func Gym Deadlift - silver/black

The Func.Gym Deadlift is the most natural of all exercises the human body can perform, one that engages the large leg muscles along with the upper body core stabilising muscles for whole body training. The exercise can be done with two handles or one at a time, allowing for variety in training and giving more opportunities to engage more muscles and stabilize the core. The machine is delivered complete with 8 coloured Vulcano discs of 5 kg for a total weight of 40 kg. The weights are conveniently stored on the machine when not in use. Please note, if the machine is loaded with more than 40 kg in weight, it must be mounted to the floor.

ARTICLE CODE

3001284-02

LENGTH

1600 mm / 62.99 in.

WIDTH

1180 mm / 46.46 in.
