

DESIGNED FOR

Creating XF Rigs and functional fitness training rig solutions

QUALITY CONSTRUCTION

Strong sturdy steel tubing and durable powder coat finish

CUSTOMISED CREATIONS

Use the rig pieces, components and attachments to create rig solutions to meet all your facility needs

COVER PLATES

Not Included. Add them to your order to give your rig installation a better finish. Appropriate for covering installation bolts on floors thicker than 15mm.

RIG UPRIGHTS

THE FOUNDATIONS OF YOUR DREAM RIG

Robust 80x80x3 mm square steel tubing rig uprights with 70 mm spaced laser cut holes for accessory attachments on all sides of the leg. Overlapping holes allow for maximum flexibility. We recommend the legs are anchored with bolts into the floor or through the base plate.
