

DESIGNED FOR

Creating XF Rigs and functional fitness training rig solutions

QUALITY CONSTRUCTION

Strong sturdy steel tubing and durable powder coat finish

CUSTOMISED CREATIONS

Use the rig pieces, components and attachments to create rig solutions to meet all your facility needs

EXTEND TRAINING

FOR ADDING RING AND ROPE STATIONS

The XF 80 Trawler arm is attached to the top of a rig to create ring and rope stations. The protruding arm is placed at the top of an upright, and when paired with the XF 80 Trawler bracket, is used to suspend roman rings or hang ropes. Laser cut hangers holes along the trawler allows for a wide range of width adjustments to accommodate users.
