

DESIGNED FOR

Creating XF Rigs and functional fitness training rig solutions

QUALITY CONSTRUCTION

Strong sturdy steel tubing and durable powder coat finish

CUSTOMISED CREATIONS

Use the rig pieces, components and attachments to create rig solutions to meet all your facility needs

PROVIDE STABILITY

ANCHORING RIGS FOR STABILITY AND USER SAFETY

The Eleiko XF 80 Bottom Plate is a base plate used when rigs cannot be bolted directly to the floor to provide necessary stability and ensure user safety. A base plate is required for each leg and can be used in both 1100 mm and 1720 mm widths to create stability across the entire rig structure.
