

DESIGNED FOR

National, international and Olympic level competitive weightlifting

CERTIFIED

The platform is certified by the IWF for competition

IDEAL LIFTING SURFACE

Substantial wooden beams treated and finished to ensure optimal traction

EASY ASSEMBLY

Innovative steel rod and wooden beam design with corner mounts comes together and breaks down easily for quick installation and tear down

LONG LASTING

The finest quality materials along with our robust design ensure the platform maintains its shape, staying stiff and level for years

CHAMPION APPROVED

DISTINGUISHED DESIGN AND WORLD CLASS PERFORMANCE

Eleiko's newest IWF Weightlifting Competition Platform debuts a new construction with a reduced number of planks, a design that simplifies assembly and ensures the platform comes together seamlessly to create our best platform yet. Seven high-quality Scandinavian hardwood beams provide a more robust and stable lifting surface. The wooden deck is finished using a special process to maximize durability and traction while also minimizing signs of heavy use providing lifters with the best lifting surface. Platform corners have been fine-tuned and updated with a rich charcoal surface finish giving the platform an appealing modern aesthetic.
