

**DESIGNED FOR**

Functional fitness training

NUMBER OF STATIONS

8 pull-up stations and 3 squat stations

MUSCLE-UP COMPATIBILITY

5 of the pull-up stations are appropriate for muscle-ups

RINGS AND ROPES

6 stations for rings or ropes as configured

MINIMUM SPACE REQUIREMENTS

9x4 m is the minimum space requirement

WALL MOUNTED SOLUTION

A LOW-HIGH COMBINATION GIVES MAXIMUM POSSIBILITIES

This assembly combines low and high uprights, so you can integrate rope or ring stations into your set up. The unit can be used a building block for creating a wall mounted XF 80 Rig solutions or as a complete assembly. The unit features eight pull-up stations, five of which are appropriate for muscle-ups, and two squat stations. It can be outfitted with our entire range of XF Accessories or built upon by grouping units or adding pieces from the Rig Framework collection.
