

DESIGNED FOR

Increasing difficulty with added resistance

GHD ACCESSORY

Sold separately as an accessory to the GHD

DURABLE CONSTRUCTION

Firmly affixes to GHD base and made from durable powder coated steel

ADD CHALLENGE

INCREASED RESISTANCE FOR GHD MOVEMENTS

A separate GHD accessory piece, The Eleiko Rubber Band Attachment lets users increase the difficulty of GHD movements by adding resistance with bands. The black powder coated pieces attach to the base of the Eleiko GHD and securely hold bands in place. Two hook settings allow users to find the right positioning of the band across their upper back or chest to increase the challenge of each movement.
