

DESIGNED FOR

Creating a more quiet and inviting weightlifting area

KNOCK OUT NOISE

This version features a redesigned drop zone material to further enhance platform performance and significantly improve durability

DISTINCTIVE DETAILS

Beautiful wood deck features a custom durable inlaid rubber strip to guard deck edges, protecting the platform, bumpers and discs from damage

STURDY CONSTRUCTION

Sleek 11-gauge custom shaped steel frame ensures the platform will not shift or warp

PLEASE DROP THE WEIGHTS

SVR PLATFORMS REDUCE NOISE, DAMPEN VIBRATION AND MINIMISE BOUNCE, CREATING OPPORTUNITIES FOR FACILITIES

The Eleiko SVR Platform enables facilities to incorporate lifting and performance training in an inviting way that minimises the challenges posed by noise and vibration from dropped barbells and heavy lifts. The SVR 2.0 version features an update to our exclusive drop zone materials which enhance performance and significantly improve durability. The custom multi-layered wood deck is protected with a non-slip hardwearing laminate and a long lasting durable inlaid rubber strip to guard deck edges, bumpers and discs from damage. The platform is solidly constructed and highly durable without sacrificing aesthetic appeal and will stand up to the heavy use in commercial facilities.
