New ways to use your XF 80 Rig and provide space for performing hip thrusts

**USER FRIENDLY**

Easily adjustable to any height along the uprights to accommodate all users

**QUALITY CONSTRUCTION**

Strong sturdy steel tubing and durable powder coat finish

# BUILD A STRONG BACKSIDE

## RIG ATTACHMENT FOR TRAINING THE GLUTES

The Eleiko XF 80 Glute Developer is a truly unique fitness attachment. Designed to work seamlessly with our XF 80 Rig collections, the Glute Developer attaches between two uprights in any 1100 mm squat station giving members and athletes a safe dedicated space to build their posterior chain with a variety of hip thrust movements. Designed with the high quality steel and durable powder coat finish, the Glute Developer easily slides into the precision cut holes on the upright and locks into place for safe and secure operation.
