CERTIFICATION

Bench is certified by the World Para Powerlifting Organization

USER SAFETY

The safety catches can be adjusted to 9 heights in 50 mm increments

EASILY ADJUSTABLE

J-cup height can be easily set to one of 21 heights in 20 mm increments

EASILY TRANSPORTABLE

Knock-down design for easy assembly and transport

COMPETITION READY

CRAFTSMANSHIP AND COMFORT FOR YOUR BEST PERFORMANCE

Eleiko's custom designed para powerlifting bench press meets World Para Powerlifting Organization standards and the unique requirements of its competitive athletes. The updated profile is modern and visually appealing while still delivering the robust construction. The bench transitions from a wide bench below the torso to a standard bench to best support athletes. Firm padding delivers a durable surface that is comfortable and optimized for lifting. The user-friendly design features knurled stainless steel adjustment knobs that are comfortable to grasp and easy to operate. This bench is ready for competition stage with clean simple lines, and knock-down construction for easy transport and assembly. Adjustable safety features ensure athletes are protected during each lift and velcro straps are available as an accessory if needed.
