

OPTIMIZED GEOMETRY

Rack geometry makes it easier to rack the barbell and gives more room inside the frame without compromising load capacity.

STABLE FOUNDATION

Hidden bolt down holes minimize trip hazards, provide stability while maintaining the half rack's sleek appearance.

POWDER COAT UPRIGHTS

Hard wearing powder coat uprights feature 50 mm spacing increments with laser cut numbering to accommodate a wide range of user, attachment and training needs.

PROTECT KNURLING

Polyurethane rollers on j-cups protect bar knurling and support positioning adjustments

COMPATIBILITY

Designed for use with attachments in the Prestera Series.

THE FOUNDATION FOR STRENGTH

CUSTOMIZE WITH PRESTERA ATTACHMENTS

The Prestera Half Rack features essential attachments including a straight pull-up bar, j-cups with rollers, and safety arms and is outfitted with eight weight pins for maximum storage. The sturdy steel tubing is finished with a matte, black textured powder coat that wears well in tough training environments. The easily adjustable J-cups have a taller profile, inspired by our IPF combo bench, that offers more protection to the rack and barbell and feature polyurethane rollers to protect the bar knurling and support positioning adjustments.
