

Prestera Double Half Rack - Stainless uprights - Black

#### OPTIMIZED GEOMETRY

Rack geometry makes it easier to rack the barbell and gives more room inside the frame without compromising load capacity.

#### STAINLESS STEEL UPRIGHTS

A performance upgrade to the powder coat option, 25 mm hole spacing provides more precise adjustment increments and electrolytic etching maintains steel strength and integrity.

#### STABLE FOUNDATION

Hidden bolt down holes minimizes trip hazards, provide stability while maintaining the half rack's sleek appearance.

#### PROTEGER EL MOLETEADO

Polyurethane rollers on j-cups protect bar knurling and support positioning adjustments

#### COMPATIBILITY

Designed for use with attachments in the Prestera Series.

## MAXIMAL TRAINING IN A MINIMAL FOOTPRINT

### CUSTOMIZE WITH PRESTERA ATTACHMENTS

The Prestera Double Half Rack is the foundation for creating highly versatile dual strength training stations that maximize facility footprints. The stainless uprights deliver a performance upgrade providing tighter 25 mm hole spacing with etched numbering and a long-lasting finish optimized for gliding attachments. The rack features a straight pull-up bar, j-cups, safety arms and eight weight pins in three lengths for versatile storage. The easily adjustable J-cups have a taller profile — inspired by our IPF combo bench — with UHMW protection on the back and polyurethane rollers in the cups to protect the bar knurling and support positioning adjustments.
