

#### **OPTIMIZED GEOMETRY**

Rack geometry makes it easier to rack the barbell and gives more room inside the frame without compromising load capacity.

#### **STABLE FOUNDATION**

Hidden bolt down holes minimize trip hazards, provide stability while maintaining the half rack's sleek appearance.

#### **POWDER COAT UPRIGHTS**

Hard wearing powder coat uprights feature 50 mm spacing increments with laser cut numbering to accommodate a wide range of user, attachment and training needs.

#### **BESKYTTER RUGLEMØNSTERET**

Polyurethane rollers on j-cups protect bar knurling and support positioning adjustments

#### **COMPATIBILITY**

Designed for use with attachments in the Prestera Series.

# THE FOUNDATION FOR STRENGTH

## **CUSTOMIZE WITH PRESTERA ATTACHMENTS**

The Prestera Half Rack features essential attachments including a straight pull-up bar, j-cups with rollers, and safety arms and is outfitted with eight weight pins for maximum storage. The sturdy steel tubing is finished with a matte, black textured powder coat that wears well in tough training environments. The easily adjustable J-cups have a taller profile, inspired by our IPF combo bench, that offers more protection to the rack and barbell and feature polyurethane rollers to protect the bar knurling and support positioning adjustments.
